

Kündig Food Safety Tower®

A NEW STANDARD

The requirements of the food industry are becoming more and more complex. Standard raw material cleaning is increasingly reaching its technological limits. New solutions are necessary in order to continue to meet the requirements in the future.

With the know-how from over 90 years of experience in the food industry, the Kündig Group has developed the Food Safety Tower® and turned classic systems of raw material purification on its head. Successfully. The Kündig Food Safety Tower® meets the highest standards of purity and safety.

Perfect interplay: cutting edge laser and X-ray technologies guarantee unrivalled purity and product safety.

Closed-off system: From receipt of the goods to packaging, the KFST® guarantees a maximum of product safety.

State-of-the-art screening technology: Modern screening technology ensures maximum precision of the fractionation.

Stainless steel containment: Stainless steel containments eliminate contamination risks.

8 Steps for ideal purity and safety

- 1) Sieving
- 2) Removal of heavy materials
- 3) Magnetic cleaning
- 4) Removal of lightweight materials
- 5) Optical sorting
- 6) X-ray detection
- 7) Metal detection
- 8) Packaging

*The following services are part of our standard offer:
Granulating, grinding / pulverising, mixing / homogenising, roasting,
stock protection, Biosteril®-sterilising*
